How to setup Gmail/g suite mail on iPhone Mail App

This is adding Gmail account to iPhone Mail where it is assigned a separate Inbox:

1. Tap **Settings** on the iPhone Home screen.
2. Select **Passwords & Accounts**.
3. Tap **Add Account** on the **Passwords & Accounts** screen.
4. Select **Google** from the options presented.

5. Enter your **Gmail address** (or phone number) in the field provided. Tap **Next**.

6. Enter your **Gmail password** in the field provided. Tap **Next**.

7. Confirm that the Gmail account says **Push** or **Fetch** next to it. (Optional)
